These are great tutorials that take you through the basics of using QGIS

QGIS Official documentation

<http://www.qgis.org/en/docs/index.html>

This is usually the most up to date version of the documentation. Several PDF documents are available. We have these available at FOGIS meetings. Also handy to have on your computer in PDF format for easy searching

Word based tutorials

<http://www.qgistutorials.com/en/>

This website starts to show some of the more complex things that can be done with QGIS
